

basic::update\_cursor

```
graph LR; A[basic::update_cursor] --> B[hardware_communication::Port8Bit::write]
```

A diagram showing a call from the function `basic::update_cursor` to the function `hardware_communication::Port8Bit::write`. The first function is in a grey box, and the second is in a white box. A blue arrow points from the first box to the second.

hardware\_communication  
::Port8Bit::write
