

kernelMain

```
graph LR; A[kernelMain] --> B[hardware_communication::InterruptManager::printLoadedTableHeader];
```

The diagram consists of two rectangular boxes. The first box on the left is white with a black border and contains the text 'kernelMain'. A blue arrow points from the right side of this box to the left side of a second, larger box on the right. This second box is gray with a black border and contains the text 'hardware\_communication::InterruptManager::printLoadedTableHeader'.

hardware\_communication  
::InterruptManager::printLoaded  
TableHeader
