

driver::MouseDriver  
::handleInterrupt

```
graph LR; A[driver::MouseDriver::handleInterrupt] --> B[driver::MouseEventHandler::onMouseMove]
```

The diagram consists of two rectangular boxes connected by a blue arrow pointing from left to right. The left box is white with a black border and contains the text 'driver::MouseDriver' on the top line and '::handleInterrupt' on the bottom line. The right box is gray with a black border and contains the text 'driver::MouseEventHandler' on the top line and '::onMouseMove' on the bottom line. A blue arrow points from the right side of the left box to the left side of the right box.

driver::MouseEventHandler  
::onMouseMove
