

basic::update\_cursor

```
graph LR; A[basic::update_cursor] --> B[hardware_communication::Port8Bit::write]
```

A diagram showing a function call. On the left, a gray rectangular box contains the text 'basic::update\_cursor'. A blue arrow points from the right side of this box to the left side of a white rectangular box on the right. The white box contains the text 'hardware\_communication::Port8Bit::write'.
